HOW IT WORKS:

2

Each *It Is Written Bible School* option has a business-reply card that can be filled out and mailed to It Is Written.

Your church's unique code will be printed on the response card so that all requests are sent back to your church coordinator.

3

Your church coordinator assigns a church member to follow up with the person who requested the studies.

The church member will then hand-deliver *It Is Written Bible Study Guide Lesson #1* to the contact and begin a Bible study relationship.

The It Is Written Bible School is a simple, cost-effective way to share life-changing truth with your community.

A church that uses these interest-generating resources will have many Bible study requests. This will be the beginning of a wonderful journey that will lead to many baptisms.

That's all you have to do. You don't have to call us to see if we have received any cards back from your mailing because we automatically send them to you. Make use of one of these great options and start growing your church today!

Call or order online now!
